DOLPHIN

DS413

DOLPHIN INFORM UP AND OVER 55° SOAP DISPENSER

› Touch free counter mounted infrared soap dispenser
› Comes as standard with 125mm height and 125mm projection, other lengths are available on request
› High quality 316 stainless steel construction
› Available in liquid (.L) and foam (.F) soap versions
› Available in Brushed and mirror polished stainless steel, PVD, Ceramic coating in all colours, and Powder coated in any RAL colour.
› Soap Reservoir options include – 1,2 or 5 ltr bottle, multifeed systems (Cartridge systems) or DS800 or DS810 cartridge systems
› Designed to be paired with DS213 tap
› SMART enabled to allow for better control of your washroom (when bought with a bluetooth adaptor)
› Can be bought with a hard wired or plug in transformer
› Designed as a plug and play system for most common installations – but in special cases, soap delivery time, pump speed, and sensor distance setting can be changed via dolphin app when bluetooth adaptor is installed
› Effective maximum length of soap tube and cable is 1.8m
› 21mm mounting hole in counter required
› WELL compliant if you take out bottle and clean or replace every time before refilling - or you can also use a cartridge system to achieve this
› Default liquid soap dose of approx. 1ml
› 5 year warranty
› Doc M compliant
› Typical power consumption 0.5A per activation
› Supplied with 1A power supply
› Working parts are all housed inside the body – saving space and helping with ease of maintenance

HEIGHT	**125MM**
